REINVENTING WINDOW FILM!

Ensure your children have the coolest and safest travel experience with the help of **BabyGuard Boost**, the newest window film in the industry. **Specifically**

designed premium window film for **coupes, sedans** and all type of **sunroofs**. Superior protection of heat, UV radiation and mechanical damages.

1.

Reinventing window film

Skyfol BabyGuard Boost is an exceptional window film in the industry, it provides heat UV and surface protection for the vehicle at the same time.

2.

Aesthetic look

Sunshades, diapers should be spared! The Baby Guard Boost film series has a visible light transmittance of 5, 15, 30 and 70%, giving an aesthetic appearance to the car's glass surfaces.

by Skyfol®

3.

99.9% UV filtering

Skyfol BabyGuard Boost has unique 99.9% UV protection, as it utilizes the UV filtering materials of so-called „museum films“, used for the protection of valuable objects from fading.

4.

Professional heat protection

Babyguard Boost (just like the BabyGuard series) is manufactured using nano technology, contains a multitude of very thin layers, letting only 8% of irradiated heat pass through.

FEATURES OF THE SKYFOL BABYGUARD BOOST WINDOW FILM

BabyGuard Boost is a crystal clear polyurethane-based window film, developed specially for **rear windshields** and **sunroofs**. Passangers will have **perfect visibility**; the shade of the film is comparable to factory-tinted windows.

BabyGuard Boost **highly filters** the irradiated **heat** and **harmful UV radiation** to protect children – thanks to nano technology. The **infrared rejection** of BabyGuard Boost is **92%**, which is outstanding in the industry!

In case of **glass breakage** or **mechanical impacts**, BabyGuard Boost will keeps fragments together.

Technical details

	BabyGuard Boost 05	BabyGuard Boost 15	BabyGuard Boost 30	BabyGuard Boost 70
Total solar energy transmitted	8%	12%	26%	40%
